#### Service Options

"Full Service"	This desktop service includes the cost of equipment purchase, equipment installation, equipment maintenance, equipment surplus, software licensing, software license renewal, software patches, upgrades, direct labor, and indirect expenses such as security, help desk, and administration. Software includes: Microsoft Operating System, Office Pro Plus (Word, Excel, Access, Powerpoint, Publisher, Infopath), Adobe Reader, McAfee, Winzip (OS provided). Pricing includes both the asset fee and network fee.
"Premium"	Decentralized rates include a single rate for desktops and a single rate for laptops. When agencies request PCs, agencies have the option of selecting a premium vs. standard PC configuration. By FY 2009, VITA will expand standard and premium rates and catalog choices for both desktops and laptops. <b>Subject to JLARC approval during FY 2008, FY 2009 premium desktop rates are estimated to be approximately \$97.00 per month (\$125.00 including the network fee) and premium laptop rates \$133.00 per month (\$161.00 including the network fee).</b>
"Tablets"	Currently, VITA has one rate for laptops, which is the same rate for tablets. Agencies that request tablets will not be charged a different rate today, but may be at a later date as dictated by cost differences.
